This is Renegade Files Episode 123, The Book of Enoch, Fallen Angels, and Today's Spiritual War.

300 years before Jesus walked the Earth ancient Jewish Scholar-Mystics created the Book of Enoch. It's creation evolved in stages that covered 200 years and it eventually became essential to the studies of both Jewish and Christian leaders.

The power and knowledge of its teachings were reserved for the highest theologians. Such a book of scripture was, at the time, classified as *apocryphal*, which comes from the Greek word "apocrypha" meaning "hidden" or "secret".

Originally, the term was used for sacred books whose contents were too exalted for reading by commoners, or even, the lower, less enlightened clergy.

But, as is often the case with powerful knowledge, the texts caused disagreements. The Book of Enoch was never included in the official Old Testament Bible, and was wholly erased from European history in the Middle Ages.

And this didn't happen because the book had a few heretical parts. This is serious stuff. If the book of Enoch was allowed to become part of our Creation Myth Canon, it obliterates and rewrites our entire understanding of the human race. This is a creation populated by demons, giants, and aliens and not from some modern revisionist theories, but from ancient and revered writings.

So the book was denounced, banned, cursed, burned, and for a thousand years, forgotten.

But in 1773, rumors of a surviving copy compelled Scottish explorer James Bruce on a long journey into Ethiopia where he discovered that the Book of Enoch had been preserved by the Ethiopian church.

And as we read the stories about the Fallen Angels on Earth, their lusts and goals with Earthly women, the agendas of their Nephilim offspring, and its magical methods of manifestation, we begin to see the book's fingerprints on geopolitical events. Its lore offers explanation for some otherwise seemingly illogical or evil deeds of the power elite.

Do these ancient descriptions of Satan's battle with God on Earth, and armies of Fallen Angels corrupting mortal souls, begin to echo not only Zacharia Sitchin's Annunaki, but agendas of World Economic Forum Control, Transhumanist hopes, and a Surveillance State Technocracy?

Come with me now to find out, and explore the dusty pages of a book so powerful, it was banished for a millennium, as together we delve into The Book of Enoch: Fallen Angles, and Today's Spiritual War.

AEO (Answer Engine Optimization):

Question 1: “What is the Book of Enoch?”

Answer 1: The Book of Enoch is an ancient Jewish religious text written between roughly the 3rd century BC and 1st century BC. It contains stories about fallen angels called the Watchers, the Nephilim giants, heavenly visions, divine judgment, and mysteries of creation.

Question 2: "Why was the Book of Enoch removed from the Bible?"

Answer 2: The Book of Enoch was excluded from most Jewish and Christian biblical canons because religious leaders considered it non-authoritative, controversial, or outside accepted scripture. Its dramatic accounts of angels, giants, and cosmic secrets also made it a debated text for centuries.

Question 3: "Who are the Watchers in the Book of Enoch?"

Answer 3: The Watchers are a group of heavenly beings who descended to Earth, took human wives, and taught forbidden knowledge to humanity. Their actions led to corruption, the birth of the Nephilim, and divine punishment according to the text.

Question 4: "Why is the Book of Enoch popular today?"

Answer 4: The Book of Enoch is popular today because it explores forbidden history, fallen angels, giants, prophecy, and spiritual warfare. Many readers are also drawn to its connections with biblical mysteries, ancient civilizations, and modern paranormal theories.

300 years before Jesus walked the Earth ancient Jewish Scholar-Mystics created the Book of Enoch. It's creation evolved in stages that covered 200 years and it eventually became essential to the studies of both Jewish and Christian leaders.

The power and knowledge of its teachings were reserved for the highest theologians. Such a book of scripture was, at the time, classified as *apocryphal*, which comes from the Greek word "apocrypha" meaning "hidden" or "secret".

Originally, the term was used for sacred books whose contents were too exalted for reading by commoners, or even, the lower, less enlightened clergy.

But, as is often the case with powerful knowledge, the texts caused disagreements. The Book of Enoch was never included in the official Old

And this didn't happen because the book had a few heretical parts. This is serious stuff. If the book of Enoch was allowed to become part of our Creation Myth Canon, it obliterates and rewrites our entire understanding of the human race. This is a creation populated by demons, giants, and aliens and not from some modern revisionist theories, but from ancient and revered writings.

So the book was denounced, banned, cursed, burned, and for a thousand years, forgotten.

PART 1 — History, Loss, and Rediscovery

Before we get too deep into this let me provide a disclaimer. I'm not a biblical scholar, nor am I a pious Christian, but it isn't my intention to offend anyone's faith or belief if I use what could be construed as irreverent metaphor to summarize or describe what might otherwise be dense, esoteric, and archaic prose written thousands of years ago.

There's a valuable story here, but there's also my way of understanding and explaining things, and this isn't the place for a sermon, nor is it my place to try to deliver one.

The reality is, The Book of Enoch was thrown out of the church because it paints a different picture of the world we live in, than the one they chose to get behind, and I don't know the full truth anymore than anyone else. I approach this material with an open mind. That's all. Let's go.

The story of The Book of Enoch is one of the most remarkable in all of religious literature. An ancient text, lost to most of the world for over a thousand years, then found again.

Allegorically attributed to Enoch, the actual great-grandfather of Noah, the work was not really written by the historical Enoch himself. It was written by multiple Jewish authors between roughly the **3rd century BC and 1st century BC**, during a turbulent age marked by foreign conquest, persecution, and apocalyptic expectations.

It's a collection of visionary writings gathered into what is now called 1 Enoch, which is commonly referred to as The Book of Enoch.

It describes rebellious angels descending to earth, the birth of the Nephilim, heavenly journeys through the cosmos, divine judgment, and a coming righteous kingdom. These themes deeply influenced Jewish thought in the centuries before Christianity and were known among early Christians as well. The Epistle of Jude, which is a short book in the New Testament, attributed to Jude, who is identified as a servant of Jesus and brother of James. Jude directly quotes The Book of Enoch, which many people have pointed out as a sort of, stamp of approval as to the authenticity of The Book of Enoch itself.

For a few hundred years it was seen as a valuable description of creation and knowledge passed on to Enoch from God himself.

Yet the book's fortunes changed. As rabbinic Judaism formalized its scriptural canon after the destruction of the Second Temple in **70 CE**, Enoch was left outside accepted Hebrew scripture.

At the same time in the Christian world, church leaders increasingly feared that the book was either heretical, because it reveals moments when God let a few things get out of hand, or that it, in many ways, *knew too much* as the old saying goes, and they didn't want lesser minds reading about The Watchers and Giants, and the mechanics of Space and the cosmos.

So by the 4th and 5th centuries, The Book of Enoch was banished and survived mostly as a name mentioned by scholars who knew it had once existed.

For centuries, many believed the complete text was gone forever.

But in the ancient Christian roots of Ethiopia, the Ethiopian Orthodox Tewahedo Church went rogue and preserved the book in the sacred language of Ge'ez and continued to treat it as scripture.

Then in the age of exploration, a Scottish adventurer James Bruce, who had heard rumor of the text, journeyed through Ethiopia in the 1760s and returned to London in 1773 carrying 3 original copies of the lost work. European scholars were astonished. What had long been spoken of only in fragments now existed again in full form.

In **1821**, Richard Laurence published the first English translation, opening the text to a new generation of readers. Debate followed immediately: was it genuine antiquity or a later invention?

Some have pointed to passages in the Bible like the book of Jude referencing the Book of Enoch, where it says, quote,, “Enoch, the seventh from Adam, prophesied about them: ‘See, the Lord is coming with thousands upon thousands of his holy ones to judge everyone, and to convict all of them of all the ungodly acts they have committed...” and it goes on, but as far as this passage proving the validity of The Book of Enoch, it probably doesn't.

Most Christian Scholars, and even an outsider Heathen reading logically, will say that the Book of Jude is referring to the person Enoch, and not the Book of Enoch. So the arguments about the Book of Enoch actually being as old as scholars claimed went on.

Then the question was answered dramatically in 1947, with the Dead Sea Scrolls discovery. The Dead Sea Scrolls contained passages from The Book of Enoch written in ancient Aramaic, and dating to centuries before Christ.

These fragments proved the book was truly ancient and had circulated widely among Jewish communities long before the rise of Christianity.

So the history of the Book of Enoch is one of creation, exile, survival, and return. Written in the shadow of rising empires and growing monotheistic religious power, to be first revered and then rejected, preserved in distant monasteries, and rediscovered after ages of silence. If nothing else, it's absolutely one of history's greatest lost-and-found books.

PART 2 – A Description of The Book

The book of Enoch is 160 pages in 5 main sections and 108 chapters. It starts with Book 1, the Watchers.

It starts with a blessing of Enoch, who was Noah's great grandfather, and the hero of this book because he is the one being given all the information here, because this was just sort of the way scholars conveyed information back then.

Chapter 2 is called The Creation and here are some quotes from it.

Observe ye everything that takes place in the heaven, how they do not change their orbits, and the luminaries which are in the heaven, how they all rise and set in order each in its season, and transgress not against their appointed order.

So this is describing the planets and the stars and their movements in the skies. So right away what we have here feels more like science than biblical allegory, because the heaven in this case is the cosmos as we see it and its precision. It speaks of orbits and luminaries are stars, and that's that.

It goes on to describe in similar ways the processes of nature, like seasons and growth of trees and plants and the natural world and it parallels this to the precision of the heavens.

Now remember that all of this is being taught to Enoch. That's the reason for the Book of Enoch, and the main thing is that he was chosen for his character, and he was not just being given this information for himself, but so that he could learn and understand the ways the world worked, and then go forth and teach it to others.

Moving on.

We read... all the righteous shall rejoice, and there shall be forgiveness of sins, and every mercy and peace and forbearance.

...salvation unto them, a goodly light. And for all of you sinners there shall be no salvation but on you all shall abide the curse of the beast. But for the elect there shall be light and joy and peace, and they shall inherit the earth. And their lives shall be increased in peace, and the years of their joy shall be multiplied in eternal gladness and peace all the days of their life.

Okay... so very biblical. Right. Be evil and be sorry, be cool and want not. This is an elaborate way to describe Karma, or, *you reap what you sow. Action and reaction. Cause and effect.*

Chapter 3 is called Fallen Angels. Some passages from that:

And it came to pass when the children of men had multiplied that in those days were born unto them beautiful and comely daughters.

And the angels, the children of the heaven, saw and lusted after them, and said to one another: "Come, let us choose us wives from among the children of men and beget us children."

This is the whole Von Daniken, chariots of the Gods idea, also Zecharia Sitchin, of the watchers in heaven being real extraterrestrial entities.

So 200 of these heavenly watchers descended to Earth and did their thing with the hot Earth Girls, but they also, quote, *taught them charms and enchantments, and the cutting of roots, and made them acquainted with plants.*

And the next passage reads *And they became pregnant, and they bare great giants, whose height was three thousand ells: Who consumed all the acquisitions of men. And when men could no longer sustain them, the giants turned against them and devoured mankind.*

And they began to sin against birds, and beasts, and reptiles, and fish, and to devour one another's flesh, and drink the blood. Then the earth laid accusation against the lawless ones.

Epstein Files anyone?

And Azazel taught men to make swords, and knives, and shields, and breastplates, and made known to them the metals of the earth and the art of working them, and bracelets, and ornaments, and the use of antimony, and the beautifying of the eyelids, and all kinds of costly stones, and all colouring tinctures.

And there arose much godlessness, and they committed fornication, and they were led astray, and became corrupt in all their ways.

Then in Chapter 4 quote, *And then Michael, Uriel, Raphael, and Gabriel looked down from heaven and saw much blood being shed upon the earth, and all lawlessness being wrought upon the earth.*

Ok, so these are the bigshot angles who brought the case to God and they basically tattle tailed on the Fallen Angels and told God that they had been getting it on with the Earth chicks and had made the Nephilim and everything on Earth was going to Hell because of them, and it took a lot of back and forth that I'll skip for you but in the end God gives each archangel a job and here are a few:

Heal the earth which the angels have corrupted, and proclaim the healing of the earth, that they may heal the plague, and that all the children of men may not perish through all the secret things that the Watchers have disclosed and have taught their sons. And the whole earth has been corrupted through the works that were taught by Azazel, to him ascribe all sin.

Okay so this lets the humans off the hook and shifts the blame to the Fallen Angels for causing all this ruckus.

And to Gabriel said the Lord, "Proceed against the bastards and the reprobates, and against the children of fornication and destroy the children of the Watchers from amongst men. Send them one against the other that they may destroy each other in battle.

Alright so this gets rid of the Nephilim... the giants.

And the Lord said unto Michael, "Go, bind Samlazaz and his associates who have united themselves with women so as to have defiled themselves with them in all their uncleanness. And when their sons have slain one another, and they have seen the destruction of their beloved ones, bind them fast for seventy generations in the valleys of the earth.

And whosoever shall be condemned and destroyed will from thenceforth be bound together with them to the end of all generations. and destroy all the spirits of the reprobate and the children of the Watchers because they have wronged mankind.

So the Angels go down to Earth and fight it out with the Fallen Angels (so The Watchers, also their Nephilim offspring) and the *long story short* is that the good angels won and then they, with God's help, set about to replant the trees and plants, and fix up all the streams and rivers and oceans, and basically get all the contractors to rebuild Nagasaki but on a global scale.

One note here that extends these concepts beyond the pages of The Book of Enoch is the fact that the concepts of Fallen Angles and this basic story in general is a persistent one.

We find the Fallen Angels also in what is called the Second Book of Enoch, which was written around 700 AD and refers to their leader as Satanail, which is the Aramaic name for Satan.

Then we find the story in The Book of Jubilees, an ancient Jewish religious work, accepted as canonical by both the Ethiopian Orthodox Church and the group known as the Beta Israel, who are a Jewish group originating in the Amhara and Tigray regions of northern Ethiopia. The Book of Jubilees also refers to the Watchers as Fallen Angels. But in this text there is a twist in that

they didn't first rebel, but were sent to Earth by God to instruct the people, but went Rogue when they started hooking up with Earth girls, and after that the story is essentially the same as it is in 1 Enoch, then 2 Enoch, and now The Book of Jubilees.

The point is that even as the original Book of Enoch was banished and lost for centuries, the Fallen Angels stories were kept alive in other apocryphal texts.

And in each version Fallen Angels, who are described as the guys that joined up with Satan, either flee or are sent to Earth, corrupt humanity physically and morally, and then are defeated by the good angels God sends to re-establish peace and order.

But here's that catch.

Once that's done we still have this problem of all the souls and spirits of what the Book of Enoch calls the *bastards and the reprobates*, The defeated angels and the Nephilim, right, and so what do we do with them?

So this gets really complicated, and fast, because we have this whole branch of the story that connects up to the Old Testament Bible, and some other scriptures throughout the ages, that tell us that The Watchers were more than the Ancient Alien Hypothesis Extraterrestrials, because they were also the legions of Lucifer Loyalists who had gone against God in the Heavens in that whole Satanic Coup Det ta' thing (and we all know how that turned out for Satan).

So here, God has a dilemma.

He can't just send the souls of the defeated Nephilim and Fallen Angels down to Hell, because he knows that they'll just join back up with Satan, and then he'll have another rebellion on his hands, and who has time.

Like you can't put all the Manson Family crazies in a big cell with Charlie Manson once you arrest them all. Right?

So, as supreme being and CEO of the Universe and beyond, what do you do?

Well the book of Enoch tells us... and here's where things get terrifying. So God instructs Enoch what to go tell the spirits of the defeated Fallen Angels and their Nephilim kids... Get ready for this. Again reading from, now, Chapter 5:

So Enoch says to the fallen these messages from God...

But you were formerly spiritual, living the eternal life, and immortal for all generations of the world. And therefore I have not appointed wives for you; for as for the spiritual ones of the heaven, in heaven is their dwelling.

*And now, the giants, who are produced from the spirits and flesh, shall be called **evil spirits** upon the earth, and on the earth shall be their dwelling.*

Evil spirits have proceeded from their bodies; because they are born from men and from the Watchers is their beginning and primal origin; they shall be evil spirits on earth, and evil spirits shall they be called.

And the spirits of the giants afflict, oppress, destroy, attack, do battle, and work destruction on the earth, and cause trouble. They take no food, but nevertheless hunger and thirst, and cause offences.

And these spirits shall rise up against the children of men and against the women, because they have proceeded from them.

From the days of the slaughter and destruction and death of the giants, from the souls of whose flesh the spirits, having gone forth, shall destroy without incurring judgement, thus shall they destroy until the day of the consummation, the great judgement in which the age shall be consummated, over the Watchers and the godless, yea, shall be wholly consummated.

And now as to the Watchers who have sent thee to intercede for them, who had been aforetime in heaven, say to them: "You have been in heaven, but all the mysteries had not yet been revealed to you, and you knew worthless ones, and these in the hardness of your hearts you have made known to the women, and through these mysteries women and men work much evil on earth."

Say to them therefore: "You have no peace."

God goes on to call Earth the prison of the fallen angels.

A few points here.

*"And now, the giants, who are produced from the spirits and flesh, shall be called **evil spirits** upon the earth, and on the earth shall be their dwelling."*

(Thanks a lot) (What could go wrong?)

Well, how about, quote, *"the spirits of the giants afflict, oppress, destroy, attack, do battle, and work destruction on the earth, and cause trouble. They take no food, but nevertheless hunger and thirst, and cause offences."*

(Yeah, that's what I thought)

But it isn't all bad because then Enoch is taken up to heaven and he is introduced to the new school watchers. So these are the angels that have been

promoted since the last crop went bad, and they actually are doing a good job and most of them are cool.

Enoch meets them and each of them has a specific job and the idea is that this is how management is going to try to keep the peace back on earth now that the CEO has fired all the poison pills and troublemakers, in fact defeated them in battle and removed them physically from the Earth, but since there was nowhere else to put their evil spirits, we still have to deal with them, but I guess if that's what it took to get them physically off the planet, then you gotta do what you gotta do.

Now I'm not gonna go into all of it but the basic idea is that one of the new watchers is responsible for managing mankind, one watches human spirits, one the natural world, one keeps an eye on chaos, and so on.

After this we get chapters on parables, which are basically biblical descriptions of what happens to the people on the newly re-engineered earth if they commit sins against what has basically been repaired for them.

So in other words you guys made sexy time with these big handsome warrior watchers, who were either aliens, or the fallen Angel soldiers of Satan, or both, and look what it got you.

And now that God has had to send an Angel army down there to clean things up, if you wreck this a second time, these parables describe all the bad things that your everlasting soul is going to have to deal with, as a result.

We then get chapters on the birth of Noah, and the story of how Enoch was called to be the messenger of all of this.

Then there are extensive passages of Enoch being taken into the heavens. The ancient aliens crew point to this as being a possible story of actual ancient space travel, and it's interesting because this is the point in the gospel of Enoch when the archangels take him up to teach him about the Heavens.

And from the perspective of the old allegories we're used to being given by the established church for the past 2000-odd years, this would be the part when Enoch is shown all of the glory and paradise of God's heaven, so he could come back down and preach the everlasting reward of the of heaven to the masses.

But this is not what we read here. These chapters describe the heavens, and by that I mean the cosmological heavens, so the sun, the stars, the planets, all of that, in what could be considered very scientific language and amazing detail. It's surprisingly accurate. Especially for something written thousands and thousands of years ago. It talks about orbits of planets, the circumference of the sun. It's fascinating.

So fascinating in fact, that it was officially cursed and banished by Rabbis and Priests starting around 100 AD, so if you recall, the writing of the book began about 300BC, and it took 200 years to write, so in its finished form it was used by the elite in both Judaism and Christianity for a mere 200 years before it was declared too dangerous and it wasn't widely known again, outside of a very few biblical scholars in Ethiopia, until Scotsman James Bruce found it again in 1773.

PART 3 — Modern Parallels

So according to The Book of Enoch, 200 angelic beings called "The Watchers" descended to Earth, bred offspring with the Earthly women, and produced a race of giants called the Nephilim. The Nephilim were large, strong, and relentless, consuming and depleting everything the Earth and the humans had produced.

And when they had consumed all resources, they turned upon the humans themselves, and devoured them as well.

There are striking parallels between the works of Mormonism founder and the Church of Latter Day Saints Joseph Smith's nineteenth-century account of Enoch and a body of ancient Jewish literature, most notably the Book of Giants preserved among the Dead Sea Scrolls discovered in parts from 1946 to 1956. We know that the Dead Sea Scrolls were used to somewhat validate the antiquity of The Book of Enoch.

Then in 1830, Joseph Smith dictated a lengthy account of Enoch that departs significantly from the brief biblical references in Genesis and Jude. Smith's Enoch narrative appears strikingly similar to material found in the Book of Giants and The Book of Enoch.

Joseph Smith and Mormonism is a story for another day, but his accounts do match much of the stories from The Book of Enoch... and it was rediscovered in the late 1700s, so it's possible he knew about it.

Following the Book of Enoch parallels even closer to the modern day leads us to Zecharia Sitchin.

The Book of Enoch's Fallen Angels story is almost exactly Zecharia Sitchin's Anunnaki interpretation of the ancient Sumerian Creation myths, so if we consider Sitchin's translations to be anything close to accurate, then the Sumerian Creation stories of the Cuneiform Tablets provide another source of this exact story.

Sitchin tells us that the Sumerian Cuneiform Tablets describe group of mythic beings known as the *Anunnaki*. Sitchin translates the Sumerian word, Anunnaki as "*those who came down*" or "*those who came from heaven to Earth*". This parallels the Book of Enoch stories of the Fallen Angels, and aligns with Ancient Astronaut theories of these beings being literal extraterrestrials.

Then, according to Sitchin's translations, the Anunnaki, crossed their own DNA with that of *Homo erectus* in order to create a race of slaves to mine gold and other minerals to be used to repair their home planet's atmosphere. The initial race of hybrid humans turned out to be unruly giants. This is exactly the same tale as the Fallen Angels crossing their species with earth women and creating the Nephilim.

For a thorough look into the works of not only Zecharia Sitchin, but Eric von Daniken, Graham Hancock, David Childress, Giorgio Tsoukalos, and Philip Coppens, check out Renegade Files episode 24, Ancient Aliens: Theories and Evidence.

And as long as we're on the subject, it isn't just Sitchin's translations of the Sumerian tales of the Anunnaki that align with the Book of Enoch. We have many accounts of Christian Angels visiting Earth, plus the Aztec Space Serpents, the Native American Star People from the Pleiades, Greek Gods descending to Mount Olympus... Across multiple cultures and well into ancient times, we have recurring mythology of beings from the heavens, so space, coming to Earth.

Even materialistic, hard-science astronomers tell us that every molecule in every human's body was once a molecule within a star.

In this regard, the Book of Enoch becomes, not some otherwise unheard of collection of ideas, but an echo of some of the oldest writings we have.

Zecharia Sitchin's translations become modern theories about ancient Sumerian Creationism and the Anunnaki as Fallen Angels and their slave race as the Nephilim

Then we also have the current official disclosure bureaucracy weaving the Book of Enoch into its narrative.

I'm going to read some from an article in the UK's Daily Mail entitled "*Ancient Bible Story About Fallen Angels Resurfaces As UFO Disclosure Reaches Tipping Point.*"

This story is By CHRIS MELORE, DEPUTY SCIENCE EDITOR FOR DAILYMAIL.COM, from 21 April 2026, and because it's concise, I'm just going to read a few parts from it here. Fair Use.

Just a quick note: This article references Anna Paulina Luna, whom you probably recall as the FL Congresswoman we mentioned in Renegade Files episode 120, Paranormal News: 6 Fringe Stories Happening Right Now. Check that one out, or share it with your friends if you liked it. Thank you. ... Okay on to the article:

*Congresswoman Anna Paulina Luna of **Florida** recently posted two cryptic messages on X, one telling people to 'Read the book of Enoch' and the other displaying the 15th-century painting nicknamed the '**Madonna** of the UFO.'*

It is the latest reference the chairwoman of the House Oversight Committee's hearings on UFOs has made to the Book of Enoch while speaking about extraterrestrials and alien spacecraft.

Luna, who has also been appointed as chairwoman of the House Oversight Committee tasked with declassifying government secrets, has repeatedly claimed that this book was removed from the modern Bible to suppress information regarding ancient sightings of supernatural beings.

Just 16 minutes after posting about the Book of Enoch on Saturday, Luna posted an image of the painting Madonna and Child with the Infant St John, also known as the Madonna of the UFO, with no caption, sending conspiracy theorists wild with speculation about what Luna has learned during her UFO investigation.

The painting, credited to Domenico Ghirlandaio, depicts the Virgin Mary in prayer with the infant Jesus. In the background is a disk-shaped object with rays emanating from it, which some have interpreted as a UFO sighting.

The congresswoman has spoken publicly about the many meetings she has had with US military officials who have briefed her committee on the possible existence of life on other worlds and non-humans visiting Earth.

Those classified briefings caused Luna to draw a stunning connection between events in biblical times and visitations by what she called 'interdimensional beings,' which defied the laws of physics and were able to move outside of space and time.

Last year, Luna told podcast host Joe Rogan: 'Have I seen a spaceship personally? No. Have I seen evidence of this? Yes. Have I seen photo documentation of aircraft that I believe were not made by mankind? Yes. Is there historical significance to this? Yes.'

'Is there multiple events that go back to, I would argue, maybe even before the time of Christ, that have been documented in text? Yes,' she continued **during the August 2025 episode.**

Luna would go on to state on multiple podcast interviews that she believed it was important to read the Book of Enoch to gain context on modern UFO theories, suggesting that people may have misinterpreted these beings thousands of years ago as angels.

She described the text as information that had been 'gatekept' by modern religious orders and highlighted the Ethiopian Orthodox version as the least altered copy of this controversial text.

And the article goes on but those are the relevant parts for this case. And her X Tweets were just 10 days ago at the time of this recording.

This brings us to some serious conspiracy theory fringe, and true enough this isn't full-tilt bananas... but it's getting near the edge, so let's do it. Oh Boy, Here We Go.

So let's rewind a bit to the passages in The Book of Enoch that tell us what happened to the spirits of the Fallen Angels and the Nephilim after they were defeated by the Angel Army of God.

As you recall the gist of it was that God banished their spirits to reside on Earth forever, until he got around to the final judgement day, when God would sort them out with everyone else.

So this is like being accused of some political crime in Cuba, then being sent home to await a trial in which you know you'll be convicted.

And there's another very sketchy part to the deal, which is that, quote

the spirits of the giants afflict, oppress, destroy, attack, do battle, and work destruction on the earth, and cause trouble.

Now this brought me to the last question of this episode which is, can we find any modern examples of evil spirits, as The Book of Enoch warns us, *afflicting, oppressing, destroying the children of man and working destruction on the earth, and causing trouble.*

Answering that with examples could fill a hundred episodes, so I will give you some of the top hits I found.

The first is a little doozy of a kids book called A Children's Book of Demons. To quote the book, "Summoning Demons has never been so fun." Endquote. You can use crayons to draw sigils that will summon a demon to take out the trash for you, or to clean your room. It's supposed to be funny, but a lot of parents aren't laughing.

One obvious moment for the demons was Sam Smith's controversial 2023 performance at the 65th Grammy Awards in LA. The whole red suit, horns, blood, girl in a cage thing.

There is also the After School Satan Club, which exists to provide a safe and inclusive alternative to other religious clubs that use threats of eternal damnation to convert school children to their belief system. The After School Satan Club focuses on science, critical thinking, creative arts, and good works for the community. While engaged in all of these activities, we want clubgoers to have a good time.

And that's directly from the The Satanic Temple website, which has sponsored and created the program.

The Satanic Temple also hosts the annual SatanCon in Boston in the spring at it sells out each year. Among other things, they give out \$666 dollar scholarships, and last year one was given to an elementary school student who wrote what was judged to be the best essay on the topic of, *what I hate most about school*. Rock on.

But it isn't all about hate. There's also a kids book called Goodnight Baphomet, and here's a quote from that one: *"Respect everyone's right to be, especially when they disagree. If their words make you mad, set them free - don't be sad!"*

Not the worst advice by far.

Then we have Chuck Konzelman, who co-wrote and co-directed the movie Nefarious, in an interview with Newsweek saying, quote, *"curiosity with respect to demons is dangerous, and meddling with the occult is flat-out crazy."*

Chuck tells us that the movie warns us about what can happen when someone invites Satan into their life. He even warns us about the Ouija Board, saying, quote, "When you pick one up, you're saying 'yes-yes' to a willing spiritual possession. Your intention is almost certainly temporary, but demons play for keeps," endquote.

We could list demonic symbolism in pop culture for hours but in a very real way we see things happening before our eyes.

When rap first emerged it was all about empowerment and creativity, then as the corporate music machine got its hands into the rap cookie jar, it went all crime and criminal, glorifying the thug life as a psy-op to help populate the private prison system in which the big rap moguls were all heavily invested. Look it up.

And over the past, I dunno, 6 years or so, Rap as all of a sudden gone full Satanic. It's weird.

We also have pop culture sacred cow Taylor Swift's evolution from Disney Princess to Dark Witch.

And don't take my word for it. Media Outlet Medium tells us, in so many words, that, to paraphrase, *Taylor Swift's evolution reflects a shift from a wholesome image to embracing her darker, more complex side, particularly through her use of Witch imagery in albums like Reputation and Folklore. This transformation symbolizes her reclamation of power and challenges societal expectations of women, portraying the witch as a figure of strength rather than villainy.*

Fair enough.

Beyond pop culture and the many alleged demons or demonic worship in that space... selling your soul for rock-and-roll, devil worship among the Hollywood elite, the dark side of all that... we also have an entire thrust of what could be interpreted as the evil spirits of the fallen angels manifesting among the political leader class and the wars of men.

Spiritual warfare in the context of modern politics involves recognizing struggles and political ideologies that are against unseen forces seeking to divide and conquer not only territory or resources, but the minds and free will of the population.

Many people see the current political chaos as a sign of the end times.

This perspective encourages believers to view their struggles through a spiritual lens, understanding that the real enemy is not the opposing political party, a foreign military, or even differing opinions, but rather the spiritual forces that seek to disrupt unity and peace. Another way to say *spiritual forces that seek to disrupt unity and peace*? ... The evil spirits of the fallen angels and the Nephilim. Boom.

End Times believers also point to the Book of Revelation, also known as the Apocalypse of John, where we read about a terrifying beast with authority over every tribe, people, language, and nation, whose reach and power is global, and who enforces worship, loyalty, and controls all trade.

Conspiracy Theorists have used this to foretell scenarios of unchecked globalism in the near future.

Revelations also says that in the midst of this global coalition, a powerful and deceptive earthly leader shall arise. This is the Antichrist, who will use both political and spiritual tools to establish dominance.

He takes over nations and becomes the world's central authority. He demands that all worship him and give him pledges of loyalty.

And he controls global commerce through a specific "mark", famously called the **mark of the beast**, which determines who can buy or sell.

These passages have been used to draw comparisons to digital identification, Global IDs, a cashless future, financial surveillance, and the erosion of personal freedoms. Everyday the warnings in Revelations sound more and more realistic, or in many cases, downright descriptive.

And all of this connects back to the banned Book of Enoch, because that book gives us a clear and literal description of exactly how all these evil, demonic, and troublesome spirits got here in the first place.

And the idea that the power and entertainment elite have made Faustian bargains to garner their unchecked, seemingly endless success, in exchange for using their platforms to ridicule, marginalize, exploit, and then preach to the lowly masses and ultimately enslave them, in a fully monitored and managed digital surveillance state control machine, seems less and less like mad ramblings every day.

I saw meme with a top and bottom panel and the top says, "Here I am drinking from a soggy paper straw to save the planet," and the bottom says "The people telling me I have to do so," and it shows a collage of huge yachts, private jets, smoke-belching factories, and million-dollar cars."

I mean it's a joke. It's easy to preach Reduce Your Carbon footprint to the masses, when you have \$130 million dollars in the bank.

And the frustration the mere knowledge of this dichotomy instills, is exactly the kind of discouragement campaign that the Book of Enoch describes, when it says that the Watchers and Nephilim offspring consumed everything the people of Earth had created, and when they had consumed all of their material wealth they consumed all of their hope.

And this is not to align all material success in the world with serving the spirits of evil, no more than we can align our last episode's Ted Kaczynski with every off-grid anti-establishment libertarian.

But the fact is that The Book of Enoch was banned for a reason, and when you read it...

and then look at the current state of mega-rich movie stars crying about how much gas my truck burns...

and world leaders shaking hands to blow up nations...

and when the pop stars chosen to perform on the biggest stages wear horns and capes covered in blood...

and kid's books conjure demons, don't call me the crazy one.

And if your Satan is the light-bringer and compels you to...
Live a happy life...

Harm no one else, and (and I know this one is weird but)...
Not believe in Satan.

Then by all means, do your thing.

It's just amazing that when you look into some of these deep, esoteric things, *like the Book of Enoch*, you very often, find striking parallels to the world we live in today.

And if you're concerned with all of the war, the negativity, the divisions between people and ideas, then remember: one positive thought is ten-times more powerful than a negative thought.

The Book of Enoch also has really cool realizations in it, like the fact that we seem to have known incredible details about space, the orbits of the planets, and the circumference of the Sun thousands of years ago.

We have survived a cosmic spiritual war full of Extraterrestrial Angel Demons and Archangel Soldiers from Heaven once before, and while now they may seek out the weak among us, their existence only awaits their own final judgement, and they are nothing in the eyes of a strong and grounded Earthling.

So breathe deeply, move to your ideal desired results, and say unto the Fallen... Not Today Satan.
